DETAILED ACTION

Allowable Subject Matter

1. Claims 1-19 are allowed.
2. The following is an examiner's statement of reasons for allowance: None of the prior art of record teaches a method and apparatus for preventing contamination of a transfer roller comprising setting a separation time for the transfer roller from a transfer belt according to the size of the paper picked up from a paper feeding cassette and the size of the paper set in a printer driver and separating the transfer roller from the transfer belt when the separation time of the transfer roller set has elapsed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hirao et al, Yoneda et al, and Yamamoto disclose a transfer device used in image forming apparatus having a controller for controlling the separating time of the transfer device.
